Description

[Show/Hide Preferences](#)

☐ Hide my personal profile comments and Use Cases from startups

☐ Hide my personal profile comments and Use Cases from enterprise

☒ Hide my entire startup profile from all other startups

☐ Show my startup summary but hide my startup details from other startups

[About Us](#) | [Terms & Conditions](#) | [Twitter](#)

Once the user enter enterprise, it will auto suggest the available list from the database which the client will be providing. Once the user selects the enterprise, then its respective info like name, logo, url and description will be autopopulated. And if the enterprise is not available, then they can manually add it

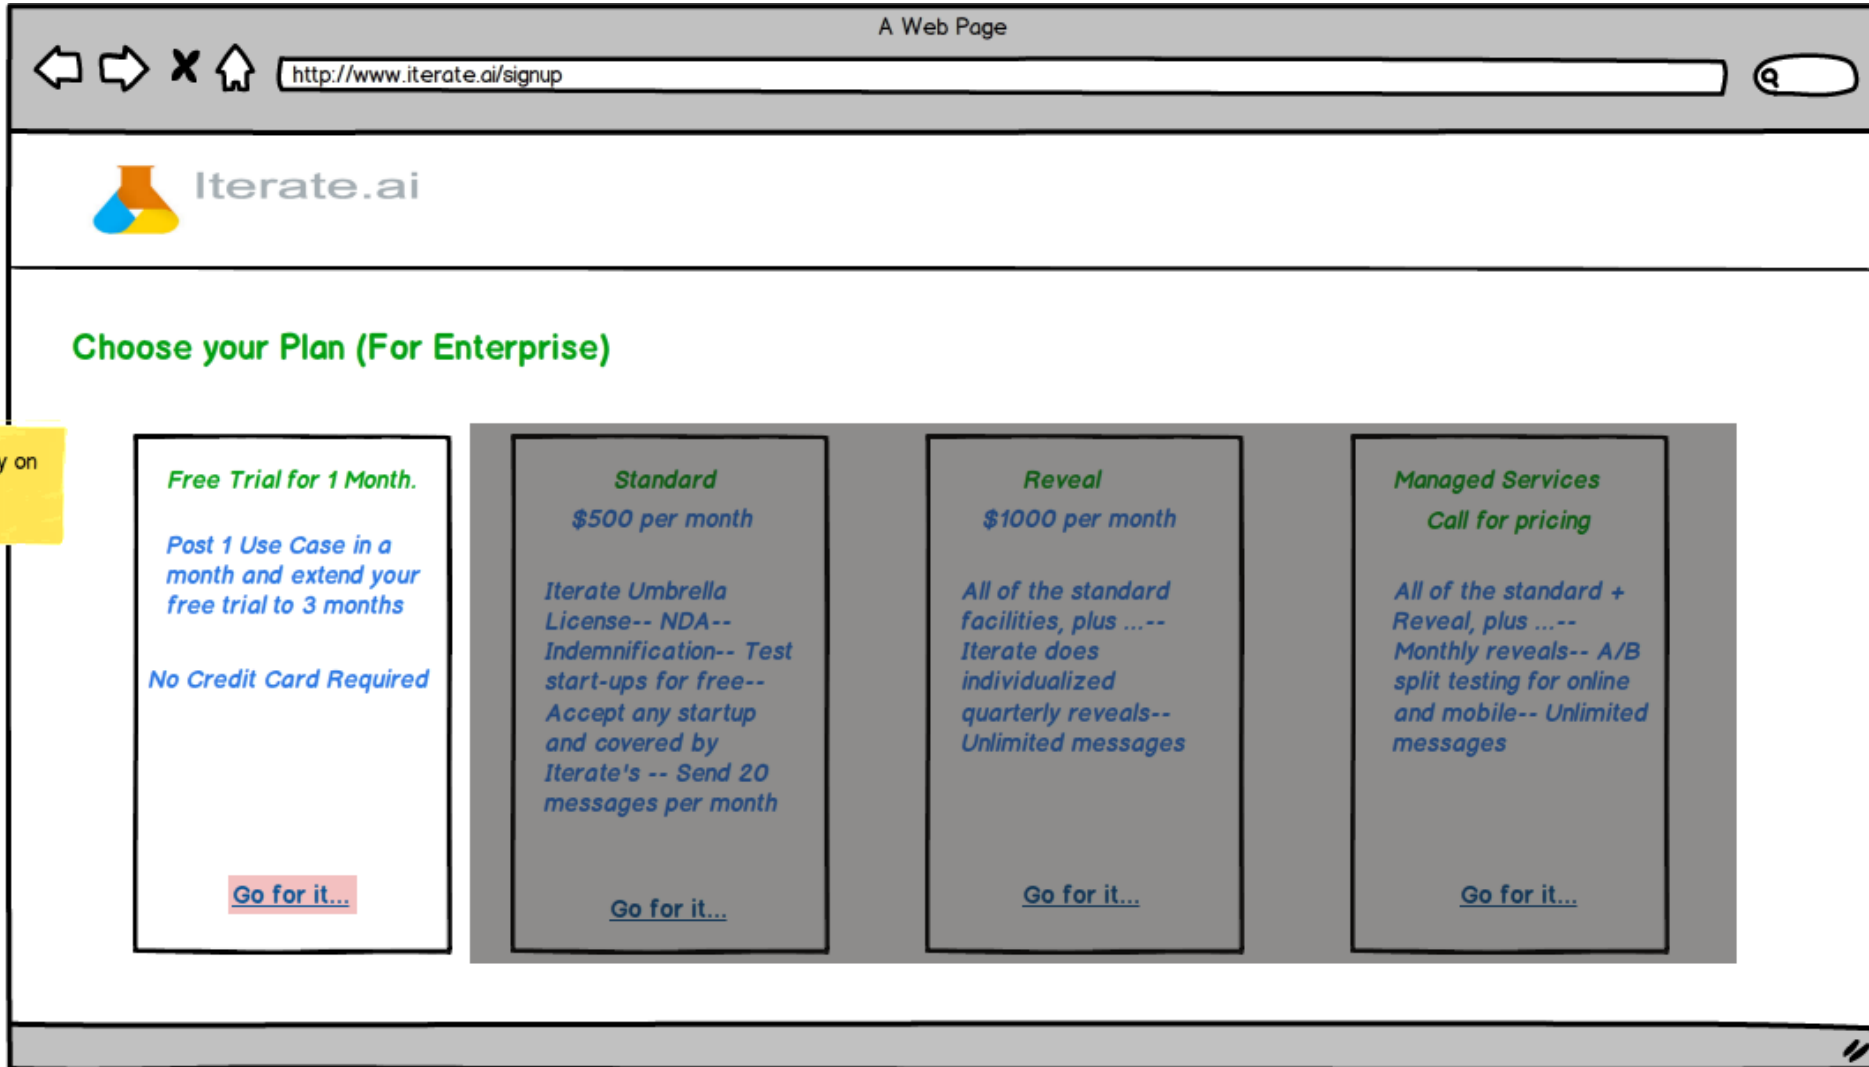

Iterate Studio	
Iterate Studio - iteratestudio.com	
Iterate Ventures - iterateventures.com	
Studio 77 - studio77.com	
Studio 24 - studio24.net	
Studio L - studio-l.com	
Studio 78 - studio78.net	
Studio 39 - studio39.com	
Studio 23 - studio23.com	
Studio 4d - studio4d.net	
Studio JK - studiojk.com	

Show/Hide preferences will be expanded/collapsed depending on the user clicks and wish to fill at the time of registration

Email address will be autofetched from linkedin
If it is not work email address then user will manually confirm email address

Logo, Website URL will be auto fetched and if not then it will be entered manually

Dynamically insert the label of the button
for e.g. if startup account is selected then Button label should be "Create Startup Account" and likewise

In this phase, we will focus only on Free Trial

Choose your Plan (For Enterprise)

Free Trial for 1 Month.

Post 1 Use Case in a month and extend your free trial to 3 months

No Credit Card Required

Go for it...

Standard

\$500 per month

Message

Trial

Followers

Clicking on message will allow the enterprise to send message to startup and vice versa
Clicking on follow - Notification will be sent to startup regarding this solution and whatever is being updated in this solution everytime notification will be sent to the followers
Enterprise can ask for trial of the solution

Here a brief description about each field will be provided for the ease of users. It will be manageable from the Admin side

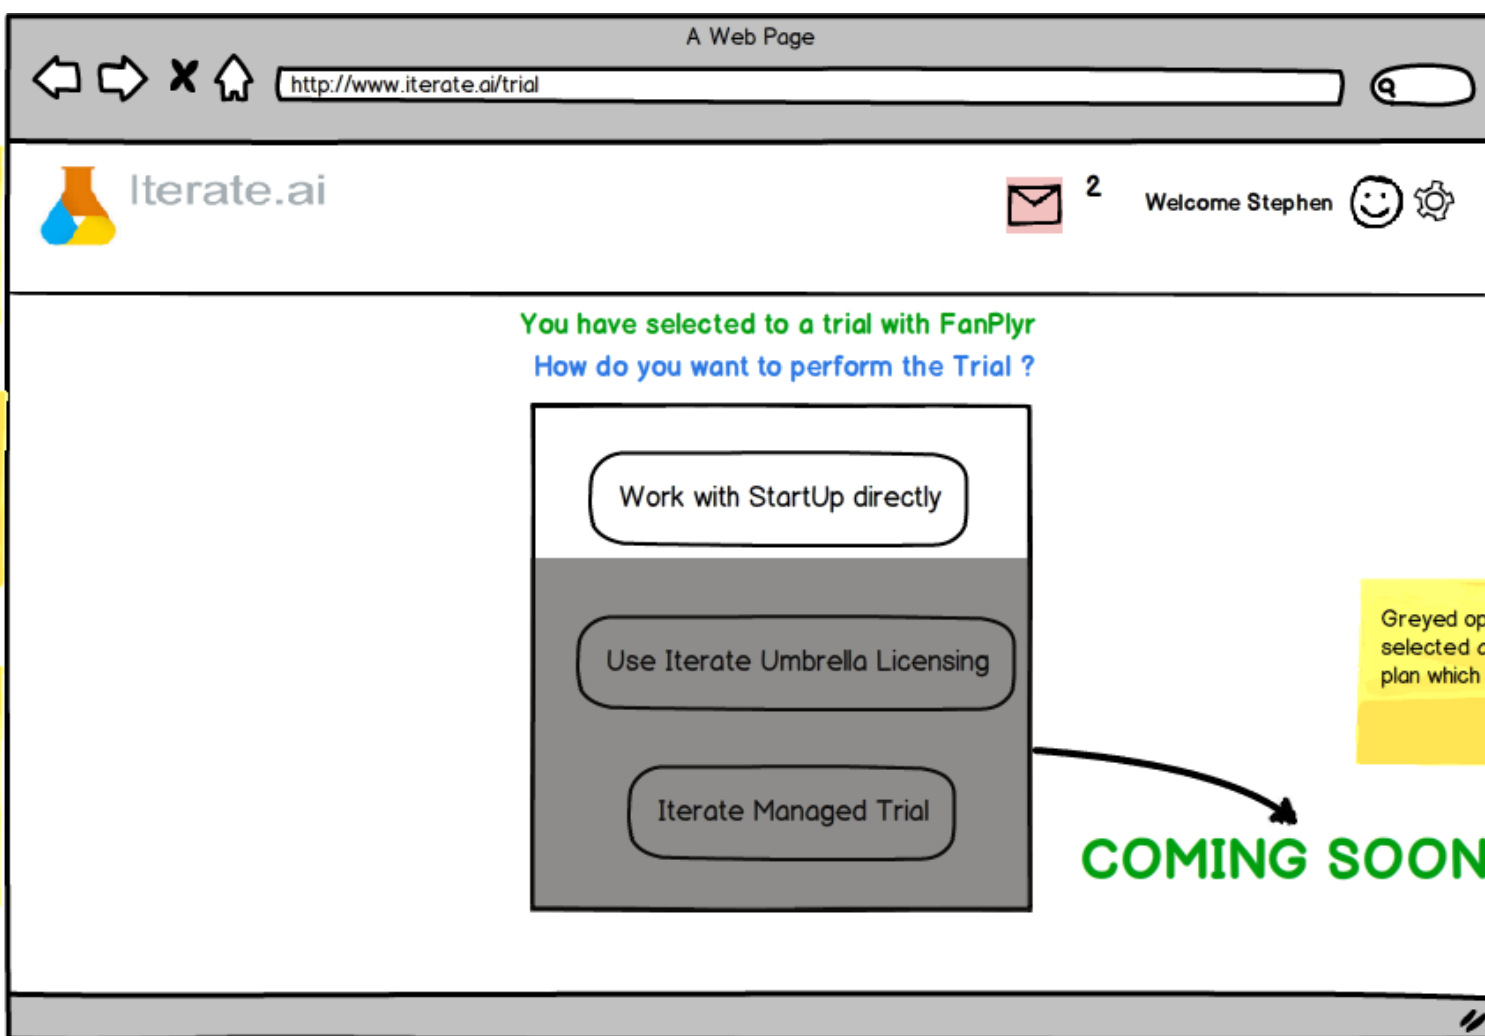

If the user selects "Others" then he can enter his own category in simple text

From disk - It means that the user can select the images from their own system

Work with Startup directly - Email notification will be sent to the specific enterprise and startup and they can directly coordinate offline. Email will be sent to Iterate Admin for the reference

Use Iterate Umbrella Licensing - All the startups are tied up with Iterate and there will be one generic terms and conditions screen which Enterprise will either "Agree" or "Deny". Email notification to Enterprise and Startup and email to Iterate Admin

Iterate Managed Trial - There will be one personnel from Iterate side who will be taking of the trial and ensuring that solution is being verified by Iterate perosn. Additional service provided to Enterprise. Email notification to startup and enterprise. Email to Iterate Admin and CC to Startup and Enterprise

When the enterprise will approve the claim, they will be asked with an option i.e. "Keep their name as anonymous" and depending the option they have selected it will be displayed in Verified insights in Startup portfolio page
